

## FortiGate® 200D Series

Secure Protection for the Campus  
Perimeter and Branch Office

## FortiGate 200D Series

FortiGate 200D, 200D-POE, 240D, 240D-POE and 280D-POE

The FortiGate 200D series delivers high-speed security and performance for campus perimeter and branch office wired or wireless networks. Purpose-built processors provide up to 4 Gbps firewall throughput, enabling protection of your applications and network without affecting availability or performance. High-density GE interfaces facilitate network growth and expansion.

The FortiGate 200D series provides comprehensive threat protection with Fortinet's unmatched range of enterprise-grade security technologies. They deliver firewall, VPN (IPsec and SSL), intrusion prevention, antivirus/antispyware, antispam, and web filtering technologies. These platforms also provide application control, data loss prevention, dynamic routing for IPv4 and IPv6, endpoint NAC, and SSL-encrypted traffic inspection. These comprehensive security components enable you to deploy required technologies most suited for your unique environment.

### Powerful, Secure, Easy to Install

FortiASIC™ purpose-built processors ensure that your security countermeasures will not become a network bottleneck. The FortiASIC CP8 processor delivers deep inspection security components such as application control, IPS and anti-malware. The FortiASIC NP4Lite processor delivers firewall and VPN throughput at switching speeds by performing high-speed processing of network flows. The FortiGate 200D series installs in minutes, automatically downloading regular updates to protect against the latest viruses, network vulnerabilities, worms, spam and phishing attacks, and malicious websites with no administrator intervention. Onboard storage provide local archiving of data for policy compliance and/or web caching.

### Key Features & Benefits

Consolidated Security Architecture	FortiGate consolidated security offers better protection and lower cost of ownership than stand-alone security products.
High Port Density	Up to 90x GE ports facilitate flexible deployment of network segments and promotes network expansion and high availability configurations.
Single Pane of Glass Management	Reduces complexity and decreases costs as all security functions can be managed through one console.
Power over Ethernet	Seamless integration of peripheral devices in a secure environment.

*These comprehensive security components enable you to deploy required technologies most suited for your unique environment.*

### Performance and Protection for Mid-size Networks

- High port density delivers maximum flexibility and scalability
- Application control coupled with identity-based policy enforcement provides complete content protection
- Strong authentication options for policy compliance
- IPv6 certified platform

## HARDWARE

### FortiGate 200D(-POE)

#### Interfaces

1. USB Management Port
2. Management Port
3. Console Port
4. USB Port
5. 2x GE RJ45 WAN Interfaces
6. 16x GE RJ45 LAN Interfaces / 8x GE RJ45 LAN and 8x GE RJ45 PoE Interfaces on POE Model
7. 2x GE SFP DMZ Interfaces

### FortiGate 240D(-POE)

#### Interfaces

1. USB Management Port
2. Management Port
3. Console Port
4. USB Port
5. 2x GE RJ45 WAN Interfaces
6. 40x GE RJ45 LAN Interfaces / 16x GE RJ45 LAN and 24x GE RJ45 PoE Interfaces on POE Model
7. 2x GE SFP DMZ Interfaces

### FortiGate 280D-POE

#### Interfaces

1. USB Management Port
2. Management Port
3. Console Port
4. USB Port
5. 2x GE RJ45 WAN Interfaces
6. 52x GE RJ45 LAN Interfaces
7. 32x GE RJ45 PoE LAN Interfaces
8. 4x GE SFP DMZ Interfaces

#### Powered by FortiASICs

- Custom FortiASIC processors provide the performance needed to block emerging threats, meet rigorous third-party certifications, and ensure that your network security solution does not become a network bottleneck

### Content Processor

The FortiASIC CP8 content processor works outside of the direct flow of traffic, providing high-speed cryptography and content inspection services including:

- Signature-based content inspection acceleration
- Encryption and decryption offloading

### Network Processor

The FortiASIC NP4Lite network processor works inline with firewall and VPN functions delivering:

- Wire-speed firewall performance for any size packets
- VPN acceleration
- Anomaly-based intrusion prevention, checksum offload and packet defragmentation
- Traffic shaping and priority queuing

## HIGHLIGHTS

### FortiOS — The World's Most Advanced Security Operating System

#### ■ Feature Select

Instantly fine-tunes the FortiGate based on desired deployment needs based on desired deployment needs using feature presets. Simplifies user administration and configurations while providing flexibility for different deployment modes.

#### ■ Contextual Visibility

Presents critical deep insights into historic or real-time network activities with data on threat details, IPs, users, devices, applications and more. Allows administrators to quickly understand threats and stop them.

#### ■ Advanced Security

Multiple advanced technologies can be coordinated to look for and stop today's blended, targeted or unknown attacks. Efficient packet handling improves performance while lowering latencies and reducing network complexities.

*For complete, up-to-date and detailed feature set, please refer to the Administration Handbook and FortiOS Datasheet.*

### Industry Validation

The FortiGate family of physical and virtual appliances has earned more certifications than any other vendor by consistently meeting rigorous third-party standards. Our industry-leading technology provides you with air-tight security which you can safely count on.

### More Protection and Better ROI

The FortiGate constantly evolves itself in its mission to provide more value for users. Extended features such as WiFi controller, integrated token server, endpoint control and WAN optimization add more security to organizations without incurring additional cost.

### Complete and Real-time Security

Fortinet FortiGuard Subscription Services provide automated, real-time, up-to-date protection against the latest security threats. Our threat research labs are located worldwide, providing 24x7 updates when you most need it.

### World-Class Technical Support and Documentation

Fortinet FortiCare support offerings provide comprehensive global support for all Fortinet products and services. You can rest assured your Fortinet security products are performing optimally and protecting your users, applications, and data around the clock.

FortiOS Dashboard — Single Pane of Glass Management

## ORDER INFORMATION

Product	SKU	Description
FortiGate 200D	FG-200D	18x GE RJ45 (including 16x LAN ports, 2x WAN ports), 2x GE SFP DMZ ports, 64 GB onboard storage.
FortiGate 200D-POE	FG-200D-POE	18x GE RJ45 (including 8x LAN and 2x WAN, 8x PoE), 2x SFP, 64 GB onboard SSD storage.
FortiGate 240D	FG-240D	42x GE RJ45 ports (including 40x LAN ports, 2x WAN ports), 2x GE SFP DMZ ports, 64 GB onboard storage.
FortiGate 240D-POE	FG-240D-POE	42x GE RJ45 ports (including 16x LAN ports, 2x WAN ports, 24x PoE ports), 2x GE SFP slots, 64 GB onboard SSD storage.
FortiGate 280D-POE	FG-280D-POE	86x GE RJ45 ports (including 52x LAN ports, 2x WAN ports, 32x PoE ports), 4x GE SFP DMZ ports, 64 GB onboard storage.
<b>Optional Accessories</b>		
External redundant AC power supply	FRPS-100	External redundant AC power supply for up to 4 units: FG-300C, FG-310B, FS-348B and FS-448B. Up to 2 units: FG-200B, FG-200D, FG-240D and FG-300D, FG-500D, FDD-200B, FDD-400B and FDD-800B. Not supported for: FG-200D-POE/240D-POE

Operating Altitude	Up to 7,400 ft (2,250 m)	Up to 7,400 ft (2,250 m)	Up to 7,400 ft (2,250 m)	Up to 7,400 ft (2,250 m)	Up to 7,400 ft (2,250 m)
Compliance					
FCC Part 15 Class A, C-Tick, VCCI, CE, UL/cUL, CB					
Certifications					
ICSA Labs: Firewall, IPsec, IPS, Antivirus, SSL-VPN					

Note: All performance values are "up to" and vary depending on system configuration. Antivirus performance is measured using 44 Kbyte HTTP files. IPS performance is measured using 1 Mbyte HTTP files. IPsec VPN performance is based on 512 byte UDP packets using AES-256+SHA1.

\* Maximum loading on each PoE port is 15.4 W (802.3af).
